Department of Commerce, Labor and  
Environmental Resources  
Attn: Mr. Thomas Bass  
Division of Environmental Protection  
Office of Waste Management, Site Investigation  
and Response  
1356 Hansford Street  
Charleston, West Virginia 25301-1401

Re: Draft Engineering Evaluation/Cost Analysis For  
Site 7, Beryllium Landfill, Allegany Ballistics  
Laboratory, Rocket Center, West Virginia

Dear Mr. Bass:

Enclosed please find a copy of the Draft Engineering  
Evaluation/Cost Analysis (EE/CA) for Site 7, Beryllium  
Landfill, Allegany Ballistics Laboratory. Per our November  
7, 1995, conference call, the Navy requests your office  
conduct a cursory review of the document prior to its  
issuance for public review and comment.

If no response, either written or verbal, is received from  
you, your office or any other regulatory agency within seven  
(7) days, the Navy will publish a public Notice of  
Availability in accordance with the National Contingency  
Plan (NCP) section 300.820(a). The Navy understands no  
response from you, your office or any other regulatory  
agency within this timeframe, does not imply your  
concurrence, as other comments from your respective offices  
may be forthcoming.

Should no comments be received within seven (7) days, the  
Navy envisions holding a public meeting at 5:00 P.M. on  
December 12, 1995. This date coincides with the meeting of  
the Restoration Advisory Board and should allow ample  
opportunity for community input.

Re: Draft Engineering Evaluation/Cost Analysis For  
Site 7, Beryllium Landfill, Allegany Ballistics  
Laboratory, Rocket Center, West Virginia

Please contact me at (804) 322-4795, should you have any  
questions, or would like to further discuss this matter.

Sincerely,

J. J. KIDWELL  
Remedial Project Manager  
Installation Restoration Program  
(South)  
Environmental Programs Branch  
Environmental Quality Division  
By direction of the Commander
